

Your benefits of being an ISES Small Company Member

■ Membership Card

A transferable Membership Card which can be passed on to each staff member and thus allows each staff member to benefit from ISES services.

■ Renewable Energy Focus Magazine

The international magazine provides news updates and in-depth feature articles on various aspects of business and research in all fields of renewable energy. Special attention is given to the technology transfer and the application of new developments in the field. The coverage on these and other topics is independent, objective and from an international perspective. ISES Small Company Members receive 10% reduction on advertising and 6 issues per year of the digital version of the magazine. This ensures rapid distribution to all staff members.

■ Electronic ISES Newsletter

The ISES Newsletter provides a full view of Society matters, including news about projects, conferences as well as our members. Share your company's news with the entire ISES community by sending your press releases to public.relations@ises.org

■ Renewable Energy Pocket Reference Books

The Renewable Energy Pocket Reference Books are a free benefit to ISES members. The third book, "Passive Solar Architecture Pocket Reference", was released at the Solar World Congress 2009. A useful resource for architects, engineers and students, this book contains easy to use information on a wide range of topics relevant to the passive built environment including thermal sources, microclimate, and life cycle cost. The first book "Solar Energy Pocket Reference" was released in 2005 and in 2008 the second in the series "Wind Energy Pocket Reference" was released.

■ Reduced Conference Fees

As an international member, you are entitled to reduced fees at selected national, regional and international congresses, seminars and events for 2 staff members, both those organised by the Society and by partner organisations. Attendance at one such conference per year means savings well in excess of ISES membership fees. The next international conference will be the ISES Solar World Congress 2011 in Kassel, Germany www.swc2011.org. In 2010 there will be three regional conferences in Europe, Asia-Pacific and Latin America, see the ISES website to learn more.

■ Corporate Membership Identification Logo

The logos can be used for promotion by ISES Corporate Members on their websites to identify themselves as members of the Society. Please contact: members@ises.org

■ Reduced prices at the ISES Online Shop

All publications presented in the ISES Online Shop accessible via ISES website are offered with at least 10% reduction on the normal book price. <http://shop.ises.org>

■ Company Listing and Members Directory

Boost visibility! Your company logo and contact details will be displayed on the ISES Members Directory, at conferences and on the ISES website showing that your Company supports the advancement of renewable energy as part of the ISES global community. ISES membership is widely recognised as a quality hallmark that can increase companies' "sustainable" image. The global Members Directory is a voluntary directory accessible to all international members. <http://directory.ises.org>

■ Solar Energy Journal (as additional service available)

The Journal is the premier peer-review journal for the broad field of solar energy and is especially relevant for engineers and technicians in your company. It provides an excellent tool for keeping up to date with the latest scientific developments in the field, and offers a widely read and highly authoritative platform for publishing your own scientific papers. The new volumes include selected conference proceedings providing more the latest in research and development of new sustainable energy technologies.

■ International Consultants Network (ICN)

The ICN is a treasure trove of information, allowing you easy, online access to a large collection of experts and consultants in the field of renewable energy. Your company listing is part of your membership package. ICN is actively marketed to a wide range of development, government, industry and UN institutions. <http://icn.ises.org>
