IEA SHC's new

Why an academy?

To share our work and support R&D and implementation of solar heating and cooling projects worldwide.

How can you participate?

- **Webinars** held quarterly hosted by ISES
- **Videos** highlighting our work and other ST issues
 - Our 1st video package (11 videos) showcases presentations from Qatar's Green Expo held November 2016 in Doha. The speakers discuss our current projects and how IEA SHC is supporting solar thermal in the MENA region.
- **National Days** are country specific events held in conjunction with IEA SHC meetings for the exchange of information between national experts and IEA SHC experts.
- **Onsite Training** provided by IEA SHC experts at the request of IEA SHC member countries.

IEA Solar Heating and Cooling Programme (group 4230381)

Join us in Abu Dhabi at SHC 2017 together with SWC 2017

The banner is split into two main sections. The left section has a dark blue background with a circular logo on the left containing the text 'ISES SWC 2017'. To the right of the logo, the text reads 'SOLAR WORLD CONGRESS 29 OCT - 02 NOV, 2017 ABU DHABI, UAE'. The right section has an orange background with a map of the world in the background. It features the text 'International Conference on Solar Heating and Cooling for Buildings and Industry' and a logo for 'SHC 2017 CONFERENCE 29 OCT - 02 NOV ABU DHABI, UAE'. At the bottom right of the orange section, there are silhouettes of people standing and talking.
