THE VALUE OF PEP RESULTS: A MANUFACTURER’S PERSPECTIVE

SOLAVORE
THE WORLD IS YOUR KITCHEN
Solavore, LLC, is a social enterprise, i.e. a company that is committed to making a social impact. Thus we serve two masters: our commercial customers and our developing world customers.
What three things do we most value from a Performance Evaluation Process?
1. EDUCATION: Inform the consumer
2. ACCURACY

The test center must:

• Understand product functionality
• Test relative performance

Figure 1 – Adjusted Cooking Power plotted over Temperature Difference (32 points)

3.2 Single Measurement of Performance

From the regression line for a $T_d = 50 \, ^\circ C$, we have: $P_r = 25.8 \, W$

The cooking power for Solavore Sport is 25.8 Watts under the test conditions.
3. INDEPENDENT, 3rd PARTY VERIFICATION by a known, reputable entity
• Haiti Adolescent Girls’ Network (HAGN)
• Micro-entrepreneur program
THANK YOU
